August 1, 2018

Dear Parents and Employees of St. John:

School Asbestos Notification

St. John Lutheran School completed the three-year re-inspection of all school facilities for asbestos containing materials in response to the “Asbestos Hazard Emergency Response Act” of 1986 on May 3, 2018 and everything was in good shape. The next three-year inspection will be in May 2021.

The AHERA (Asbestos Hazard Emergency Response Act) Management Plan for the school is available for public inspection by appointment during regular business hours in the office of the principal. This plan will be maintained and updated in the future by the principal, the asbestos “Designated Person.” Copies of the Management Plan are available to the public at a cost of 25 cents per page, payable in advance.

We will continue to conduct surveillance inspections of the asbestos material identified in our building every six months. We will further conduct a total re-inspection of the building every three years using a state-accredited inspector. All questions concerning asbestos in our building should be directed to the principal.

St. John Lutheran School

SIDE NOTE: Due to COVID pandemic, this re-inspection has been delayed by Brumbaugh-Herrick, Inc.
